Deputation Regarding Dumping of Municipal Garbage in Rajabazar Science College Campus

Date:-

21/08/2025

Respected Sir/Madam,

On behalf of the Students' Federation of India (SFI), Rajabazar Science College Unit, we wish to draw your urgent attention to a matter of serious concern.

For several days, our college campus has been repeatedly used as a dumping ground for municipal garbage. Due to the continuous rainfall, the waste is decomposing rapidly, causing unbearable foul smell, unhygienic surroundings, and creating an unsafe environment for the entire academic community.

Rajabazar Science College is not only one of the oldest but also one of the most prestigious institutions of higher learning in Kolkata. Students, teachers, researchers, and staff are all facing immense difficulties in continuing their academic activities under these conditions. The situation has now reached such a level that it is tarnishing the dignity and reputation of the institution itself. Such negligence is unacceptable and must be addressed immediately.

We, the SFI Rajabazar Science College Unit, demand the following at the earliest:

1. Urgent removal of all garbage dumped within and around the campus.
2. Permanent measures to ensure that no municipal waste is disposed of in or near the college premises in the future.
3. Strict monitoring and accountability from the municipal authorities to protect the health and dignity of the campus environment.

We believe that your immediate intervention will help restore a clean and safe atmosphere, befitting the academic stature of Rajabazar Science College. Until this issue is resolved, we, the students under the banner of SFI Rajabazar Science College Unit, will continue our movement in democratic ways to secure the rights and dignity of our campus.

Pritam Santra
President
